Shake Well Before Using

GENERAL INFORMATION: Vaporize is a specialized water-conditioning agent designed to enhance the performance of glyphosate and other weak acid herbicides. The proven ability of Vaporize to adjust pH creates a more acidic spray solution that protects the herbicides in the spray solution from antagonizing hard water ions like Calcium, Iron, Magnesium, and Manganese. This will allow glyphosate and other weak acid herbicides to stay in their most effective form. The addition of a low foaming surfactant in Vaporize reduces surface tension and enhances coverage on the leaf surface. This specially designed water-conditioning agent, pH adjuster, and surfactant system allows Vaporize to optimize glyphosate and other weak acid herbicides in some of the most challenging application conditions.

MIXING INSTRUCTIONS: Always mix Vaporize in accordance with the instructions concerning adjuvants found on pesticide labeling. In the absence of specific mixing instructions, fill the spray tank from 1/3 to 2/3 full with clean water. While the water is agitating add tank-mix ingredients in the following order: **1.** Water-soluble packets. **2.** Dry flowables and dispersible granules. **3.** Flowables. **4.** Water-soluble pesticides. **5.** Emulsifiable concentrates (continue agitation and finish filling the spray tank with water). **6.** Vaporize. **7.** Add additional adjuvants (maintain agitation while spraying to ensure a uniform spray mixture). **NOTICE:** Do not use Vaporize with any products containing Kixor® herbicide. (Kixor® is a registered trademark of BASF.)

USE RATES: 1–2 qt/100 gallons of water.

DANGER: Harmful if swallowed. Causes skin irritation. Causes serious eye damage. Wash face, hands and any exposed skin thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves, protective clothing, eye protection, and face protection.

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician. **If on skin:** Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse **If swallowed:** Call a POISON CENTER or doctor/physician if you feel unwell. Rinse mouth.

STORAGE AND DISPOSAL: DO NOT contaminate water, food, or feed by storage and disposal. Store locked up in a cool, dry, area out of the reach of children. Protect from excessive heat or cold. Triple-rinse and dispose of container in accordance with local, regional, and national regulations.

See safety data sheet for further details regarding the safe use of this product.

CONDITIONS OF SALE: Seller warrants that the product contains the ingredients in the amounts stated on this label. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS EXPRESSED, IMPLIED, OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. Timing, rate and method of application, weather and other conditions, mixtures with chemicals not specifically recommended on this label or any accompanying written recommendation are beyond the control of Seller. Buyer assumes all risks of use, storage, and handling of this material not in strict accordance with directions given herewith. In no case is Seller liable for consequential, special, or indirect damages resulting from the use or handling of this product. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at Seller's option, as full discharge of Seller's liability. No one is authorized to make any other warranty, guarantee, or directions concerning this product, and no such warranties, guarantees, or directions shall be valid or binding upon Seller.

FREEZING TEMPERATURE: 32°Fahrenheit (protect from freezing)

WEIGHT PER GALLON: 12.68 Pounds
