## SECTION 5: FIREFIGHTING MEASURES

### 5.1 Extinguishing Media

Alcohol resistant foam, CO<sub>2</sub>, powder, or water spray. Do not use water jet.

### 5.2 Special Hazards

Combustion may yield smoke, carbon monoxide, and other products of incomplete combustion. Oxides of sulfur, nitrogen or phosphorus may also be formed. Never use welding or cutting torches on or near container, even if empty. Keep away from heat, sparks, open flames and hot surfaces. No smoking!

### 5.3 Advice for Firefighters

Evacuate area. Prevent contamination from run-off of adjacent areas, streams, drinking water and sewers. Do not flush down sewers or other drainage systems. Exposed firefighters must wear standard protective equipment and in enclosed areas self-contained breathing apparatus. Use water-spray to cool fire-exposed surfaces and personnel.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

### 6.1 Precautions/Procedures

Keep all sources of ignition away from spill/release. In case of a major spill or spillage in a confined space evacuate the area and check vapor levels.

### 6.2 Environmental Precautions

Do not allow spills to enter drains or water courses.

### 6.3 Methods and Material for Containment and Cleaning Up

Ventilate the area and avoid breathing vapors. Take the personal protective measures listed in Section 8. Contain and absorb spillage with non-combustible materials (e.g. sand/earth/ vermiculite). Place in closed containers outside buildings and dispose of according to the Waste Regulations (see Section 13). Clean, preferably with a detergent. Do not use solvents. Do not allow spills to enter drains or water courses. If drains, sewers, streams or lakes are contaminated, inform the local water company immediately. In the case of contamination of rivers, streams, or lakes, the Environmental Protection Agency should also be informed.

## SECTION 7: HANDLING AND STORAGE

### 7.1 Precautions for Safe Handling

Do not get in eyes, on skin, or on clothing. Do not breathe vapors or mists. Keep container closed. Use only with adequate ventilation. Use good personal hygiene practices. Wash hands before eating, drinking, smoking. Remove contaminated clothing and wash before reuse. Destroy contaminated belts and shoes and other items that cannot be decontaminated. Have eyewash accessible to use in handling area. See Section 2 for further details.

### 7.2 Conditions For Safe Storage

Store in tightly closed containers in dry, well-ventilated area, away from excessive heat and incompatibles. See Section 2 for further details.

### 7.3 Incompatible Materials

Oxidizing agents.

### 7.4 Specific End Use(s)

### 8.3 Exposure Controls

<b>Respiratory:</b>	If workers are exposed to concentrations above the exposure limit, they must use the appropriate certified respirators.
<b>Eyes:</b>	Wear safety eyewear (e.g. safety spectacles/goggles/visors) to protect against the splash of liquids.
<b>Skin:</b>	Overalls, which cover the body, arms, and legs, should be worn. Skin should not be exposed. All parts of the body should be washed after contact.
<b>Engineering Controls:</b>	Provide adequate ventilation. Where reasonably practicable, this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates, and any vapor below occupational exposure limits, suitable respiratory protection must be worn.
<b>Other Work Practices:</b>	See product label.
